Abstract (en)

The present invention provides a rail (1) for attaching a suspended ceiling system (18) to a concrete ceiling (16). The rail (1) comprises a nailing region (2a, 2b) that is attachable to the concrete ceiling (16) by a plurality of nails (17). The rail (1) also has an attachment feature (8) for attachment of a part (19) of the suspended ceiling system (18) to the rail (1).
