Abstract (en)
[origin: WO2020260117A1] The invention relates to plug connector (1) for connecting to a mating plug connector (60) in an insertion direction (E). The plug connector (1) has a housing (2) with an interior (3) and a contact element (20) arranged in the interior (3). The plug connector (1) also has a connector position assurance (CPA, 4). The housing (2) has a pressure equalisation element (5) for pressure equalisation of the interior (3) relative to an exterior (6) of the housing (2). The CPA (4) is arranged on the housing (2) and is movable between a first position (P1) and a second position (P2) relative to the housing (2), wherein a sealing element (30) is provided on the CPA (4), wherein the pressure equalisation element (5) in the second position is sealed by the sealing element (30) with respect to the exterior (6).
