Abstract (en)

[origin: WO2021078420A1] The invention relates to a beverage preparation element (1) for preparing a hot beverage, comprising a casing (2) made of chocolate or a cocoa-containing compound coating, and a filling (3) arranged in the casing (2), said filling (3) containing more than 30 wt.% of sweetened condensed milk and a percentage of instant coffee. The invention additionally relates to a method for preparing a hot beverage using such a beverage preparation element such that the user can produce a flavorful hot beverage using simple means.
