Abstract (en)
[origin: CN112273759A] The invention discloses a mask. The mask comprises a mask body, the upper edge of the mask body is provided with a length adjusting component and a self-adaptive component, the self-adaptive component is arranged on the inner side of the length adjusting component, and the length adjusting component can be bent along with the curve of the face and acts on the self-adaptive component to make the self-adaptive component stressed to deform and adapted to the face curve to be attached to the face. According to the mask provided by the embodiment of the invention, the shape of the upper edge of the mask body can be self-adaptively adjusted according to the face shape of a user, the mask is more tightly attached to the face, and the protection effect of the mask is effectively improved.
