Abstract (en)  
[origin: WO2021008681A1] The present invention relates to hollow fibers filled with a liquid, in particular with a liquid flavoring agent, wherein the outer fiber diameter has a value from 100 nm to 4000 nm. The present invention additionally relates to a fibrous non-woven fabric comprising or consisting of hollow fibers according to the invention and products comprising hollow fibers according to the invention. The invention furthermore relates to a method for releasing the liquid and to a method for producing a hollow fiber according to the invention. The present invention additionally relates to the use of a hollow fiber according to the invention in various products, such as textiles, cosmetic products, adhesives and detergents, for example.
