Abstract (en)

[origin: WO2021014236A1] The invention is a table cloth (1) for playing card games, more specifically a card game of the Baccarat-Punto Banco type or a similar type, in which the round of play is played between the banker and a fictitious player, and wherein one or more players bet tokens and/or fiches on the banker's win, on the fictitious player's win or on the tie between them, wherein the table cloth (1) comprises an underside designed to come into contact with a supporting plane; an upper side (2) visible to the players; the upper side (2) is provided with graphical representations suited to define one or more areas (3) where to position the tokens and/or fiches; a plurality of spaces (12) where to position the cards associated with the banker; a plurality of spaces (13) where to position the cards associated with the fictitious player. The sum of the spaces (12) delimiting the position of the cards associated with the dealer and the spaces (13) delimiting the position of the cards associated with the fictitious player equals four. A table and a piece of equipment for playing card games, more specifically a card game of the Baccarat-Punto Banco type or a similar type.
