Abstract (en)

[origin: WO2021013394A1] The invention relates to shaped products, comprising a) a first gel-type phase and b) at least a second gel-type phase that is different from the first gel-type phase and is at least partially surrounded by the first gel-type phase, the second gel-type phase containing active substance particles having a maximum diameter of between 1 and 200 µm. The invention also relates to the use thereof and to a method for producing same.
