Abstract (en)
[origin: WO2021089151A1] The invention relates to an adapter element (2) for fastening a planar element (62), in particular an awning, to a vehicle (80, 86, 96), comprising an adapter body (4), which has a first edge region (6) for fastening the adapter element (2) to a vehicle (80, 86, 96), and a second edge region (8) for fastening a planar element (62) to the adapter element (2), wherein the first edge region (6) of the adapter body (4) is equipped with a vehicle connection element (10; 20, 22; 30) for releasably fastening the first edge region (6) to a vehicle (80, 86, 96), and wherein the second edge region (8) of the adapter body (4) is equipped at the second edge region (8) with a planar element connection element (40) for releasably fastening the second edge region (8) to an edge region (66a-c) of a planar element (62). The invention also relates to a modular system (60) having such an adapter element (2) and having a planar element (62).
