Abstract (en)
An object of the present invention is to provide an armrest for a chair capable of receiving writing instruments as well as supporting the arm. To this end, the armrest for the chair of the present invention is an armrest for a chair provided on a seat part through a supporter and supporting a user's arm, which includes a receiving case for supporting the arm which is provided on the upper end of the supporter and elongated in a front-rear direction with respect to the seat part, and has an upper opening part; and an arm rest cover opening and closing the upper opening part and supporting the user's arm.
