Abstract (en)
A loader assembly (1) of long pasta able to be placed after a production line of the long pasta, following a conveyor able to direct the long pasta into the loader assembly (1), in order for said long pasta to be dosed and discharged into a packaging machine, comprising a vibrating descender (2), a rotor (3) suitable for pouring doses of long pasta, at least one weighing device (5) for the long pasta, and at least one basket for accumulating the long pasta, is described. The vibrating descender (2) comprises an internal vibrating descender (7) and an external vibrating descender (8). (Figure 3).
