Abstract (en)
A pouched product (1) for oral use comprising a liquid permeable cover material (2) and a portion sized amount of a filling material (3) comprising a particulate material, and one or more water soluble components in addition to the particulate material, the filling material (3) being enclosed by the liquid permeable cover material (2), the particles of the particulate material having a particle density and a bulk density. The particle density is at least 1.4 times greater than the bulk density of the particles of the particulate material. the filling material (3) has a pre-use moisture content of from 1% by weight of the filling material (3) to 35% by weight of the filling material (3).
