Abstract (en)

Dishwasher (1) has a control unit (9) that opens the door (4) of the washing machine before the start of the drying step or at the same time as the drying step. The control unit (9) may open the door when the temperature inside the washing tub is between 40 °C and 45°C. The control unit (9) enables the door (4) to remain open for a predetermined period of time and then to be closed again.
