Abstract (en)
Automotive light (1), wherein the lighting assembly (4) comprises: a substantially basin-shaped reflector body (5), which is placed inside the rear body (2) and is internally provided with a reflecting surface (5a) shaped so as to reflect the incident light towards said transparent or semitransparent sector (3a) of the front half-shell (3); and at least one row of LEDs (6) that are arranged inside the rear body (2) close to the reflector body (5), and direct the light produced towards the reflecting surface (5a) of said reflector body (5); at least one light-guide plate (10) made of photoconductive material, which is arranged inside the rear body (2), beside the reflector body (5), with its rear sidewall (10b) on a side of the row of LEDs (6) so as to be illuminated by a minor part of the light emitted by said LEDs (6).
