Abstract (en)  
An environmentally friendly cosmetics container, the overall structure of the cosmetics container is form of food grade polyethylene terephthalate. The overall cosmetics container is formed by five members: a cap, a rotational tube, an ascending and descending tube, a support tube and a lower exterior casing. The rotation tube is put on the support tube. The ascending and descending tube is disposed in the support tube. The lower exterior casing houses the rotation tube, the ascending and descending tube and the support tube when combined, and then the cosmetics container is closed by securing the cap and the lower exterior.
