Abstract (en)

[origin: WO2021058240A1] The present invention relates to a product for dyeing keratinous material, in particular human hair, containing: (a1) at least one amino-functionalized silicone polymer, (a2) at least one chromophoric compound, and (a3) at least one ester oil. The invention also relates to a method for dyeing keratin material using the aforementioned product on the keratin material.
