Abstract (en)  
[origin: WO2021058883A1] The invention relates to a battery pack (1) comprising a container (2) defining an inner space, at least one battery module (3) consisting of at least one ion lithium-type electrochemical cell and means for cooling the cell, the module (3) being housed in the inner space of the container (2). The invention is characterised in that the container (2) comprises a separating wall (21) defining, in the inner space, a compartment (22) for receiving the module (3) and a collecting compartment (23), the separating wall (21) having at least one opening (4) allowing a liquid to pass from the receiving compartment (22) to the collecting compartment (23).
