Abstract (en)

[origin: WO2021063432A1] An adapter system for mounting or fastening bags or containers (100) with fixing elements for engaging around and/or acting and/or engaging on or between struts (102, 103) of a luggage carrier (101) and with which the bag or the container can be reversibly attached with the adapter system to luggage carriers, in particular can be attached on the upper side of a luggage carrier, wherein the adapter system has at least two holding elements (3) which act or engage on opposite struts (2) of the adapter and are equipped with a spring-loaded and rotatably (4) mounted lever (5), wherein the rotatably mounted lever has a geometry by means of which, in the position of the bag placed with the adapter system on the luggage carrier, a surface, a protrusion or an angular element or a shell element at that end of the lever (5) which faces away from the pivot point (4) pivots in from below in a manner gripping over or onto the luggage carrier strut (102) and securely clamps or jams the adapter system on the luggage carrier struts in a self-locking manner and prevents a movement of the bag or the container with the adapter system upwards, wherein the lever has a handle by means of which the clamping position can be released.
