Abstract (en)
[origin: WO2021064723A1] A hangable and expandable prism-shaped dispensing package comprising a base wall; a top wall having a rear edge and a front edge; at least one side expansion wall extending between said base wall and said top wall, expandable between a compacted state and an expanded state; a hanging arrangement for hanging of the dispensing package having a hanging portion which at a hanging position is disposed closer to the rear edge than the front edge; and a dispensing location configured to facilitate dispensing of sheet material therethrough. The dispensing location being disposed at a top portion of the dispensing package.
