Abstract (en)  
[origin: WO2021063608A1] The invention relates to a lift installation comprising a lift shaft (2) provided with shaft doors (4) and a cabin (3) which can move up and down therein. The cabin (3) has a cabin apron (5) which can move between a horizontal rest position and a vertical locked position. The cabin apron (5) is mounted pivotably over a guide way (10) and displaceably on the cabin (3). The cabin apron (5) in the locked position can be supported on one of the shaft doors (4).
