Abstract (en)

[origin: WO2021063963A1] The invention relates to a process for managing the rights and assets of a user (2) in a block chain, the user accessing the rights and assets by means of at least one pair of private (1a) and public (1b) keys connected with a terminal (6) of the user, the process providing for the prior storage of the rights and assets of the user (2) in a digital safe (3) connected to the user, the process further providing, in order to allow the user (2) to access his/her rights and assets, for: - collection of the public key (1b); - associating the public key (1b) with the user; - storing and associating the public key (1b) with the safe (3) of the user (2) in order to allow authentication of the user (2) by the digital safe (3) using the public key (1b).
