Abstract (en)

[origin: WO2021094343A1] The invention relates to a method for transmitting subscription data in an intermediary-free publication/subscription service, in the form of process data of a production method or of a work method, from at least one data provision component to at least one data consumption component, wherein the at least one data consumption component and the at least one data provision component agree upon at least one protocol and the data provision component transmits the subscription data in at least one of the protocols agreed upon.
