Abstract (en)

[origin: WO2021073674A2] The invention relates to a moulding plant (20) for moulding (210), a premoulding station (30) for premoulding (220), a hot-pressing station (40) for final moulding (230) of a moulded part (10) of environmentally degradable fibre material (11) in a fibre moulding process in a fibre moulding plant (100). The invention also relates to said type of fibre moulding plant (100) for producing the moulded part (10) with the above-mentioned components (20, 30, 40) by means of the method (200) carried out in the fibre moulding plant (100) as the fibre moulding process.
