Abstract (en)  
[origin: WO2021083740A1] The invention proceeds from a food preparation system (10a-b) having at least one control unit (12a-b) designed to guide through at least one process step (40a-b) of at least one process (38a-b), which is in the form of a recipe and comprises the process step (40a-b) in the form of a recipe step. In order to provide a generic system having improved properties in terms of ease of use, the control unit (12a-b) is designed to guide at least temporarily simultaneously through the process step (40a-b) and at least one further process step (66a-b), which is in the form of a recipe step.
