Abstract (en)

[origin: WO2021089708A1] The invention relates to a removable cover for protecting a refill dispenser for a hair treatment device, the removable cover comprising: - a body configured to cover the refill dispenser when the cover is mounted on the refill, - at least one flexible clamping band of a thermoplastic material which extends from the body and is configured to assume a free configuration when the cover is not mounted on the refill and a rolled configuration for maintaining the position of the body on the dispenser when the cover is mounted on the refill, in which configuration the clamping band extends around the refill, and - a locking member configured to be attached to a complementary portion of the cover, in particular the body or the clamping band, in the rolled configuration of the clamping band.
