Abstract (en)
[origin: WO2022098372A1] Compositions comprising a modified adenovirus AD5.F35 which includes coding sequence of soluble GUCY2C extracellular domain sequences are disclosed. Compositions comprising a Listeria monocytogenes vector which includes coding sequence of soluble GUCY2C extracellular domain sequences are disclosed. Methods of treating individuals diagnosed with cancer/tumors expressing GUCY2C methods of preventing micro-metastasis are disclosed.
