Abstract (en)

[origin: WO2021089391A1] The invention relates to a method for predicting an ageing condition of a battery. The invention also relates to a vehicle comprising at least one battery, the ageing condition of which is predicted according to the claimed method and/or the ageing behaviour of which is improved based on the ageing condition predicted according to the claimed method. The invention further relates to a prediction system that is configured to carry out the claimed method.
