Abstract (en)

There is provided a dishwashing machine (100). The dishwashing machine (100) comprises a controller (134). The dishwashing machine (100) also comprises a motor (160) for driving a spray arm (124) in a washing chamber (104) of the dishwashing machine (100). The controller (134) is arranged to determine an occupancy of the washing chamber (104) based at least in part on electrical current information of the motor (160), and the controller (134) is arranged to select a washing program based at least in part on the determined occupancy.
