Abstract (en)

[origin: EP4059370A1] The invention refers to a wireless fabric recording cap (1) that has a removable module (7) located on the front, which removable module incorporates a high-resolution micro-camera (2), a laser pointer (3), and a coupling LED (13). In addition, the hat (1), has another removable module (14), located in the upper part of the cap (1), incorporating the WIFI system (4), a battery (5) as well as a mini USB connector (6) , for connecting said battery to an external energy source, and an internal storage memory (12). In addition, this other removable module (14) incorporates LED light indicators, in red (8), orange (9) and green (10). The cap device is also equipped with a proximity sensor (11), arranged externally to said removable modules (7, 14).
