Abstract (en)
[origin: WO2021099087A1] The invention relates to a fuel-cell system (1) having a fuel-cell stack (3) with at least two fuel cells (5), having a housing (7) with a housing wall (9), and having at least one explosion-protection device (11), wherein the fuel-cell stack (3) and the at least one explosion-protection device (11) are arranged in the housing (7) and the at least one explosion-protection device (11) at least partially delimits a free space (13) in the housing (7).
