Abstract (en)
[origin: EP4062770A1] An object of the present invention is to provide an off-taste suppressing agent capable of effectively suppressing off-tastes due to off-taste substances, and the like. The present invention relates to an off-taste suppressing agent for an oral product containing an off-taste substance added thereto, wherein the agent contains at least one compound selected from the group consisting of a compound represented by the following formula (I): wherein each symbol is as defined in the present specification, cyclotene, and a fatty acid having a carbon atom number of 3 or 4.
