Abstract (en)
[origin: WO2021104619A1] The present invention relates to a method for producing an agglomerate, particulate product that contains one or more flavors and/or odorous substances. The shelf life of the particular product is significantly improved and the one or more flavors and/or odorous substances are protected from in particular oxidation by spraying the products with certain binders. The present invention also relates to particulate products that contain one or more flavors and/or odorous substances, preferably produced according to the method of the invention, and to the use of certain substances to improve the shelf life of particulate products that contain one or more flavors and/or odorous substances.
