Abstract (en)

[origin: WO2021104703A1] The present invention relates to an agent for dyeing keratinous material, in particular human hair, containing: (a1) at least one amino-functionalized silicone polymer, (a2) at least one pigment,, and (a3) at least one phosphorus-containing organic compound. The invention also relates to a method for dyeing keratin material using the aforementioned agent on the keratin material.
