Abstract (en)

[origin: WO2021105027A1] The present invention relates to a loading device (10) for introducing a torpedo (20) into a torpedo tube (30), wherein: the loading device (10) has at least one storage space for a torpedo (20); the loading device (10) has a transport device for bringing the torpedo (20) into a torpedo tube (30); the transport device has a fluid-mechanical drive (40); the loading device (10) has at least one first fixing element (50) for holding a torpedo (20) in the loading device (10); the loading device (10) has at least one first fixing device (60); the first fixing device (60) is designed to produce a connection to a torpedo tube (30); the loading device (10) has a connecting device (70); the connecting device (70) has at least one coupling element (80) for frictional connection with a lifting device; the connecting device (70) has at least one fluid-mechanical connection element (90).
