Abstract (en)

[origin: WO2021110313A1] The invention relates to a method for treating keratin material, in particular human hair, according to which the following are used on the keratin material: - a first composition (A) containing (A1) one or more organic C1-C6 alkoxy silanes and/or their condensation products; and - a second composition (B) containing (B1) a first cellulose and (B2) a second cellulose that differs from the first cellulose (B1).
