Abstract (en)  
[origin: WO2021108868A1] The invention relates to a method of antigen loading an antigen presenting cell or precursor thereof with a target antigen for presentation of the target antigen to a T cell, comprising contacting the antigen presenting cell or precursor thereof with a CD300f binding protein in the presence of the target antigen The invention also relates to compositions for antigen loading antigen presenting cells or precursors thereof, to immunoconjugates for antigen loading antigen presenting cells or precursors thereof, and use of antigen-loaded antigen presenting cells and immunoconjugates for promoting or increasing a T cell response to a target antigen in a subject.
