Abstract (en)
[origin: CA3163174A1] The invention concerns a play set comprising at least one play module (1) comprising a play element (2) and a base (3) equipped with an electronic board (6) comprising communication means; an electronic reader (7) comprising means (8a, 8b) for connection to a terminal (9c) allowing access to at least one computer platform (10) providing at least one service (11), the reader being arranged to connect the play module (1) to the terminal by interaction with the communication means of the electronic board (6), in order to be able to use a function (2a) offered by the play element in the service (11) provided by the computer platform, the play module (1) further comprising a spherical matrix (1) in which the play element (2) and the base (3) are enclosed, the spherical matrix allowing the play module to be used as a play ball.
