Abstract (en)

[origin: WO2021110951A1] The invention relates to a method for printing on a panel-like workpiece (W), which has wide faces and lateral faces, in the machine which has at least one digital printing device (10), in particular an inkjet printing device, comprising the steps: bringing about a relative movement between the workpiece and the at least one digital printing device, and printing on at least one of the wide faces and at least one of the lateral faces of the workpiece (W) in the machine.
