Abstract (en)

[origin: WO2021110696A1] The invention relates to a pack for products of the tobacco industry, comprising an outer pack (10) which is designed particularly as a flip pack having a pack part (11) and a cover (12) and which is manufactured from a blank made of dimensionally stable material, as well as comprising at least one inner pack (13), in particular a box-shaped inner pack, which is arranged in the outer pack (10), is also manufactured from a blank made of dimensionally stable material, and encloses the products on all sides, wherein the inner pack (13) has a closure means (34) which, prior to the inner pack (13) being used for the first time, closes a removal opening (32) which extends at least in an end region of the inner pack (13), preferably additionally in a front region of the inner pack (13), and is intended for removing individual products, and which closure means can be transferred from the state in which it closes the removal opening (32) to a state in which it exposes the removal opening (32). According to the invention, the closure means consists of dimensionally stable material, in particular of preferably coated cardboard.
