Abstract (en)
[origin: WO2021113890A1] The invention relates to a folding box for packing, storing or protecting articles, having an outer shell, the outer shell having at least three, preferably four side walls (1), an upper side (2), and an underside (3), uprights (16) being arranged at least in part at the corners (5) of the side walls (1), and the side walls (1) having connection elements on the underside (3) and/or on the upper side (2) for connection to the uprights (16), characterised in that the connection elements are designed to compensate for positional tolerances and/or dimensional tolerances of the uprights (16).
