Abstract (en)

[origin: WO2021116112A1] The invention relates to a packaging for products of the tobacco industry, wherein the packaging (10) has a box part (11) and a lid (12) which is pivotably arranged on the box part (11) via a line hinge (13), a packaging content (15) being arranged in the box part (11), the packaging (10) having a collar (20) which encloses the packaging content (15) on a plurality of sides at least in part and which protrudes, together with the packaging content (15), out of the box part (11), which is open at the top. According to the invention, walls of the collar (20) extend from a front side of the box part (11) into the region of an opposite rear side of the box part (11) on which the line hinge (13) is also located. The invention furthermore relates to a method and an apparatus for producing such a packaging.
