Abstract (en)

[origin: WO2021122829A1] The present invention relates to a medical product comprising a transparent area and an identifier, wherein a hot stamping foil is located on the transparent area and a thermal transfer foil is located on the hot stamping foil, said thermal transfer foil having in turn an identifier, wherein the identifier has a different color than the hot stamping foil. The invention also relates to a method for applying an identifier onto a medical product.
