Abstract (en)

[origin: EP4079984A1] Panel for self-supporting facade cladding comprising a screen-wall part (1.1), an inner lining part (1.2) and a ventilated facade part (1.3), wherein the screen-wall part comprises a first self-supporting wooden structure (1.11) filled with insulating material (1.12), an oriented strand board (1.16) and a fire-resistant-type plasterboard (1.14) fastened to the supporting structure, a wood fibre cement board (1.13) and a waterproofing sheet (1.15); the inner lining part comprises a second self-supporting structure (1.21), filled with insulating material, (1.22) and a plasterboard (1.23) fastened to the second supporting structure; and the ventilated facade part comprises a third self-supporting structure (1.31) fastened to the first supporting structure, and an outer finishing element (1.32) fastened to the third self-supporting structure. Another object of the invention is a self-supporting modular facade cladding system comprising a plurality of panels as described above.
