Abstract (en)

[origin: WO2021133323A2] The invention relates to a fixing system and a fixing method enabling a product to be fixed to a mounting surface in such a way that no fixing member is visible on the product surface. More particularly, the invention relates to a fixing system and a fixing method comprising a fixing component (2) fixed on the ceramic sanitary ware (7) and a bearing member (1) fixed to the mounting surface, wherein the mounting of the ceramic sanitary ware (7) is enabled to be achieved without using any hand tool, by way of enabling the fixing component (2) to fasten on the bearing member (1) as a result of the ceramic sanitary ware (7) being pushed towards the mounting surface.
