Abstract (en)
[origin: WO2021136621A1] The invention relates to a protective hood adapter device for mounting on a machine tool (12), in particular a hand-held machine tool, having at least one attachment part (26) for attaching to a protective hood (16) of the machine tool (12) and having at least one fastening part (28) which is mounted on the attachment part (26) so as to be movable in at least one movement plane (30). According to the invention, the fastening part (28) is provided to clamp the attachment part (26) on the protective hood (16) by means of a force oriented at least substantially perpendicularly to the movement plane (30).
