Abstract (en)
[origin: WO2022144192A1] The invention relates to a wristwatch (100) with a clock generator assembly (10). The clock generator assembly (10) comprises a first clock generator (1), a pulse counter (2), and an output device (3). The first clock generator (1) comprises a piezoelectric vibrating crystal and is designed to generate a clock signal. The pulse counter (2) is designed to count the clock signal of the first clock generator (1), wherein the output device (3) is designed to output a useful signal if a count value of the counted clock signal of the first clock generator (1) equals a specified count value.
