Abstract (en)  
[origin: EP4089654A1] A paper sheet storage device (14) includes a storage space (20) in which paper sheets (6) are stored; a placement table (21) that is provided in the storage space (20) and on which the paper sheets (6) are accumulated and placed; a support base (22) that supports the placement table (21); a first up-down mechanism (23) that causes the placement table (21) to rise and lower to an up position (P1) and a down position (P2) with respect to the support base (22); and a second up-down mechanism (24) that causes the support base (22) to rise and lower in the storage space (20). The first up-down mechanism (23) includes a rack unit (32) that is provided on the placement table (21) and a pinion unit that causes the rack unit (32) to move.
