Abstract (en)
[origin: WO2021144603A1] The invention relates to a method for producing edible, structured/textured products from one or more, preferably biological, materials or mixtures of such materials. The invention also relates to an apparatus for carrying out the method according to the invention, and an open- or closed-loop control system for such an apparatus . The present invention further relates to the products produced by the method according to the invention and the use thereof.
