Abstract (en)
[origin: WO2021204321A1] The invention relates to a torch having a cylindrical housing, an on/off switch being arranged on the outer casing of said cylindrical housing and the on/off switch consisting of a rigid annular body which is arranged such that it can be displaced in more than one radial direction, preferably in any desired radial direction, and it being possible for a pushbutton or push switch to be directly or indirectly operated by way of said on/off switch being operated.
