Abstract (en)

[origin: WO2021148312A1] The invention relates to a steel component (13) comprising a steel substrate (15) having an anti-corrosion coating (17) provided on at least one face of the steel substrate (15). The anti-corrosion coating (17) comprises an alloy layer (19) containing manganese. In the anti-corrosion coating, the alloy layer (19) containing manganese forms the alloy layer lying nearest to the surface. The alloy layer (19) containing manganese also comprises iron and another metal.
