Abstract (en)  
A handheld steamer (1) for vertical or horizontal steaming is provided. The steamer comprises a heated ironing plate (2) providing an ironing surface being adapted to be in contact with a fabric to be treated. The ironing plate is of at least 13.0 cm width and is provided with one or more steam outlets (4). Further, an integrated water tank (3) is comprised. The steamer comprises a hand grip (6) for a user and a boiler (8) for heating water in the water tank to produce steam, and the boiler comprises one or more flow paths (5) for providing the produced steam to the one or more steam outlets. The ironing plate is heated by that the one or more flow paths are arranged to provide heat to the ironing plate.
